MATERIALS

Cladco aluminium flat sheets are manufactured using high-quality aluminium, resulting in a stain-, rust-, and corrosion-resistant product.

VARIATIONS

With eight colours available, the screws can be purchased to match fibre cement lap cladding boards for your project for a seamless finish.

ACCESSORIES

Complete your installation with fibre cement lap cladding boards and trims to match.

EASY TO USE

These sheets are easy to handle and cut using tin snips and safety gloves. They can also be folded using a handheld metal bender.

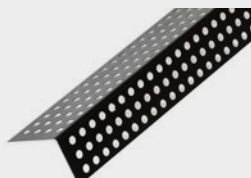

LOW MAINTENANCE

The flat aluminium surface is quick and easy to clean, helping maintain a neat, attractive finish alongside your fibre cement cladding boards.
