

# Abutment Flashings Polyester Paint 3m

Cladco Abutment Flashings with a Polyester Paint coat are produced from multi-layered, galvanised steel and coated with a smooth Polyester Paint finish.

Polyester Paint provides a moderate resistance to scratching and damage.

Each Abutment Flashing features a safety welt of 10mm that makes them safe to handle and improves the final look of your building.

## Cladco Abutment Flashings

Our metal Abutment Flashings feature a 110-degree angle (internal), and can flex 10-15 degrees during the installation process.

Secure to sheets with 22mm Stitcher Screws and allow an overlap of 200mm between one Flashing to the next Abutment Flashing.

Please note: These 200mm x 200mm Flashings provide a coverage of 190mm x 190mm due to the 10mm safety welt.
