

STAINLESS STEEL HIDDEN CLIPS ALUMINIUM RANGE

Cladco stainless steel clips offer a discreet and secure connection between aluminium decking boards by fastening tightly into the side grooves, seamlessly joining each board.

These clips create a minimal 2-3mm gap between boards, eliminating the need for larger T-clips and providing a cleaner finish.

MANUFACTURED FROM
STRONG STAINLESS STEEL

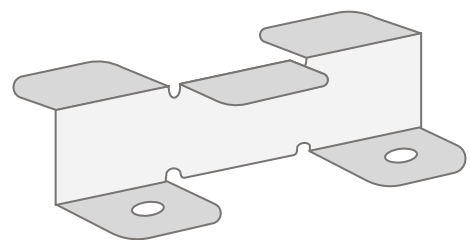

IDEAL FOR SECURING CLADCO
ALUMINIUM DECKING BOARDS

RUST AND CORROSION RESISTANT
FOR LONG-LASTING DURABILITY

SCREW SPECIFICATIONS

MATERIALS

The hidden clips and screws are crafted from stainless steel for maximum strength, ensuring a robust and durable decking foundation.

DURABILITY

Designed for durability, Cladco stainless steel clips and screws are low maintenance, resistant to rust and corrosion, and provide a long-lasting, secure fit.

ACCESSORIES

These clips and screws are fully compatible with Cladco aluminium decking boards.

LOW MAINTENANCE

Cladco stainless steel clips and screws require minimal maintenance after installation, making them ideal for a hassle-free decking solution.

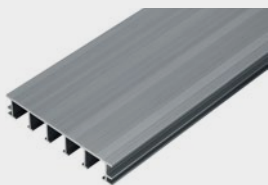

EASY TO USE

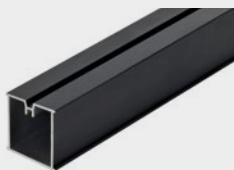

Cladco stainless steel clips and screws provide a simple, hassle-free installation with no need for pilot holes - just secure them using a PH2 screwdriver bit for a clean, hidden finish.

Please note: These stainless steel clips and screws are designed exclusively for use with Cladco aluminium decking products and should not be used with composite or timber decking.
