

# 2.2M

## SKIRTING TRIM

### ALUMINIUM DECKING

Cladco aluminium skirting trims are designed to create a clean and professional border around the edge of your aluminium decking project. Lightweight and easy to install, these trims help conceal exposed gaps and act as a barrier against debris and small animals that may access the underside of your decking.

In addition to aluminium decking, Cladco aluminium skirting trims are also suitable for use with composite decking and timber decking installations, offering a versatile finishing solution across a range of projects.

## INSTALLATION ADVICE

Finish your aluminium decking installation with Cladco Aluminium Skirting Trims, designed to neatly conceal exposed edges around the perimeter of your decking area. Secure the trim to the decking boards using suitable length screws for a clean, professional finish.

Cladco Aluminium Skirting Trims are available in matching colours to complement our Aluminium Decking Boards and Corner Trims, ensuring a seamless and coordinated appearance.

For detailed installation information, please refer to our installation guide available online.
