MATERIALS

Made from marine grade 316 stainless steel, these screws are designed to be strong and durable.

DURABILITY

These screws are strong and made from stainless steel to reduce the risk of accidental splitting of boards.

ACCESSORIES

Compatible with both timber and composite installation systems for versatile use.

EASY TO USE

With no need for pre-drilled holes, the SPEEDDEKZ screws can be drilled directly into decking boards for a secure fit.

LONG-LASTING

The stainless steel material offers excellent corrosion resistance and enhanced durability for a secure decking project.
