

# STAINLESS STEEL HIDDEN CLIPS SIGNATURE RANGE

Cladco stainless steel clips provide a hidden connection between Signature decking boards by tightly securing into the side grooves of the boards, and joining them to the next.

Cladco stainless steel clips not only connect Signature decking boards to one another but also provide a minimal 2-3mm gap due to the absence of any larger T-clips.

MANUFACTURED FROM  
STRONG STAINLESS STEEL

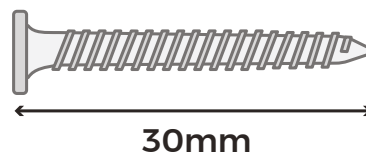

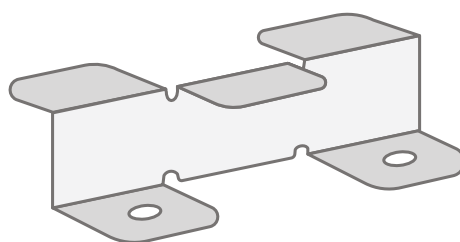

IDEAL FOR SECURING CLADCO  
SIGNATURE DECKING BOARDS

RUST AND CORROSION RESISTANT

## SCREW SPECIFICATIONS

Decking

Simple And Easy  
Installation

Rust & Corrosion  
Resistant

Strong & Durable  
Stainless Steel

#### MATERIALS

The hidden clips and screws are made from stainless steel for maximum strength, producing a strong decking foundation.

#### DURABILITY

Designed for durability, Cladco stainless steel clips and screws are low maintenance, resistant to rust and corrosion, and ensure a long-lasting, secure fit.

#### ACCESSORIES

These clips and fixing screws are compatible with both our hollow and solid Signature composite decking boards.

#### LOW MAINTENANCE

Cladco stainless steel clips and screws require minimal maintenance after installation, making them ideal for a fuss-free decking solution.

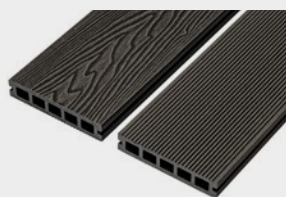

#### EASY TO USE

Cladco stainless steel clips and screws offer a simple, hassle-free installation with no need for pilot holes - just secure with a PH2 screwdriver bit for a clean, hidden finish.

**Please Note:** These stainless steel clips and screws are for use on Cladco Signature decking products only and are not to be used in conjunction with composite or timber decking products.
