

HANDRAIL END CAP BALUSTRADE SYSTEM

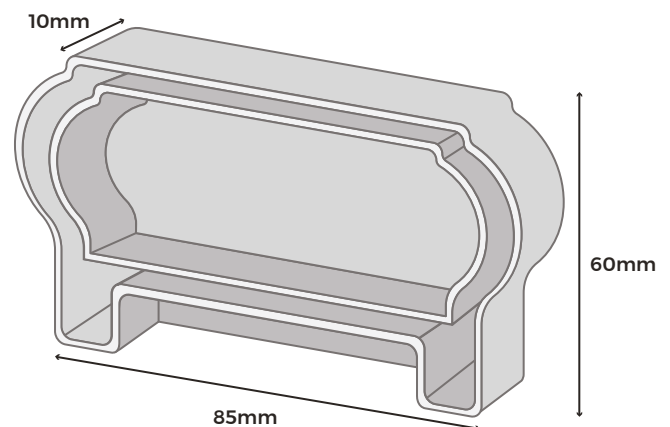

Cladco balustrade handrail end caps are used to seal the ends of balustrade handrails. As well as creating this appealing finish, the cap adds stability and protection to the edge of the balustrade handrail. It is also easily installed, making it a simple and beneficial addition to balustrade handrail systems.

Using Adhesive

Manufactured
From A Flexible
Material

Durable &
Long-Lasting Finish

MATERIALS

Made from durable and flexible rubber for a neat finish to balustrade handrails.

SURFACES

Clean and smooth finish to complete your installation.

ACCESSORIES

Balustrade end caps can be installed as is, or with adhesive. The Cladco high-strength adhesive is recommended.

LOW MAINTENANCE

The end cap is low maintenance and can be easily cleaned by simply wiping it down if it gets dusty or dirty.

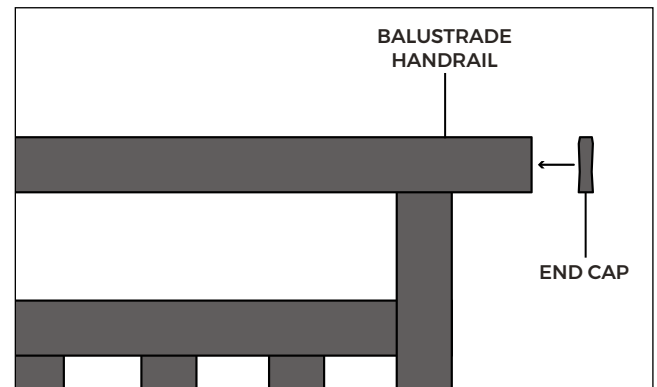

LONG LASTING

The material makes the end caps a long lasting addition to your balustrade handrail.

INSTALLATION ADVICE

Cover the exposed sides of your balustrade project with this end cap to create a polished, visually neat design.

Simply slot the end cap onto the end of the hand rail, or secure with Cladco high-strength adhesive for a secure installation.
