

2M FENCING RAIL SIGNATURE RANGE

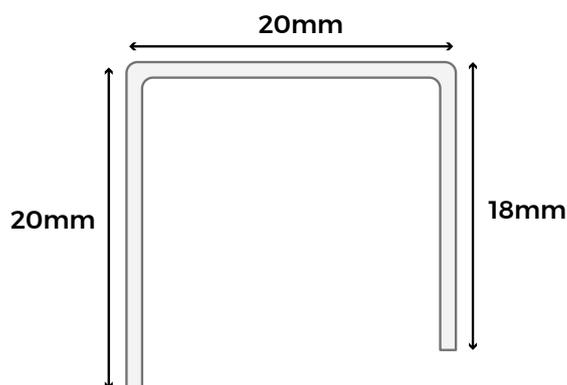

A practical and stylish finishing touch for your Signature composite fencing system, these 2m fencing rails are designed to fit along the top or bottom of Cladco Signature composite fencing panels, neatly concealing the tongue-and-groove joins where panels meet. As well as enhancing overall appearance, they add extra durability to your installation.

COLOUR RANGE

INSTALLATION ADVICE

These durable rails easily clip onto the top or base of the fencing panel and can be secured further using Cladco high strength adhesive sealant. When installed at the bottom of the panel, the rail may require replacement over time due to exposure and the risk of rust accumulation.
