

3M CONCRETE POST SPACER SIGNATURE RANGE

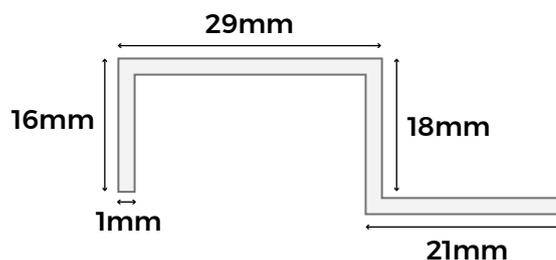

The Cladco 3m concrete post spacer trim is designed to securely fit Cladco Signature composite fence panels into standard concrete posts. It reduces a typical 50mm groove down to 21mm, creating a snug, secure fit that ensures a stable and long-lasting installation.

COLOUR RANGE

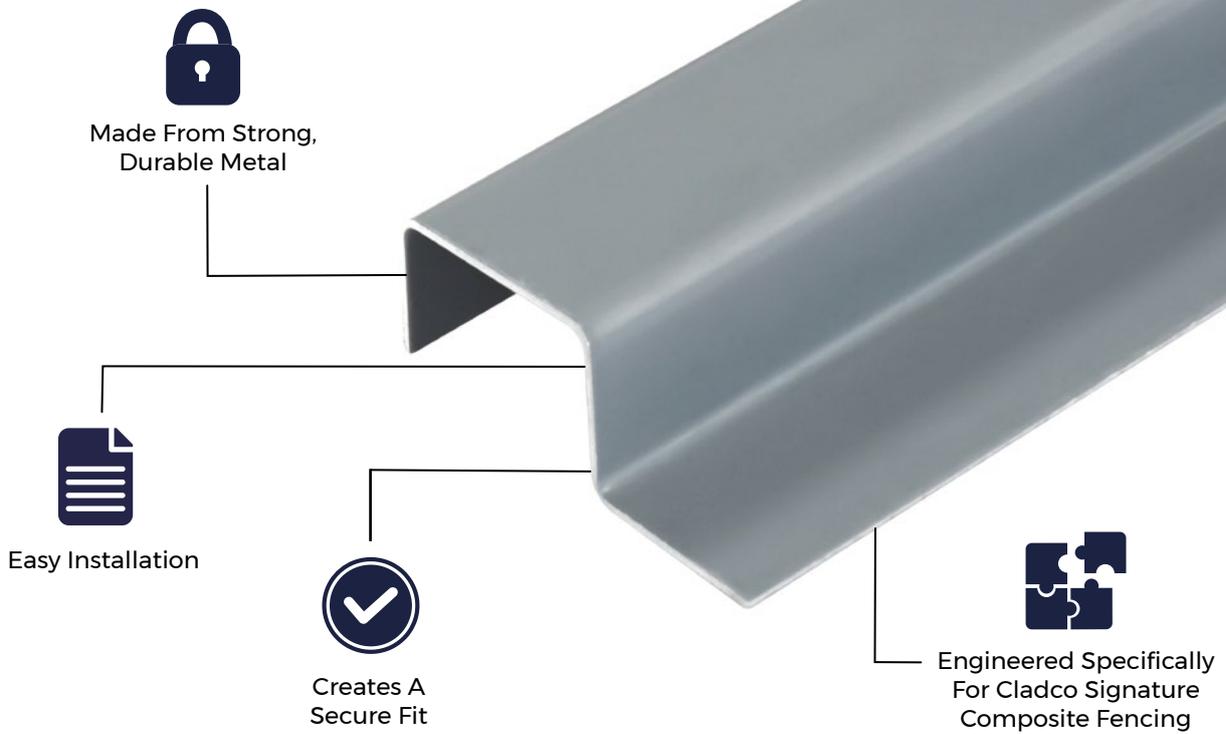

SPECIFICATIONS

INSTALLATION ADVICE

The concrete spacer has been manufactured to fit into concrete posts that have a 50mm panel groove.

Supplied in three-metre lengths and can be cut to fit your composite fencing project using aviation tin snips, if required.
