MATERIALS

Manufactured from high-strength S450 galvanised steel, cleats offer excellent structural integrity with minimal risk of rust or corrosion.

SURFACES

No additional finishes are required thanks to the corrosion-resistant galvanised coating and robust steel construction.

ACCESSORIES

Designed for use with Cladco Z and C purlins, as well as sleeve connectors, to maximise strength and stability throughout the structure.

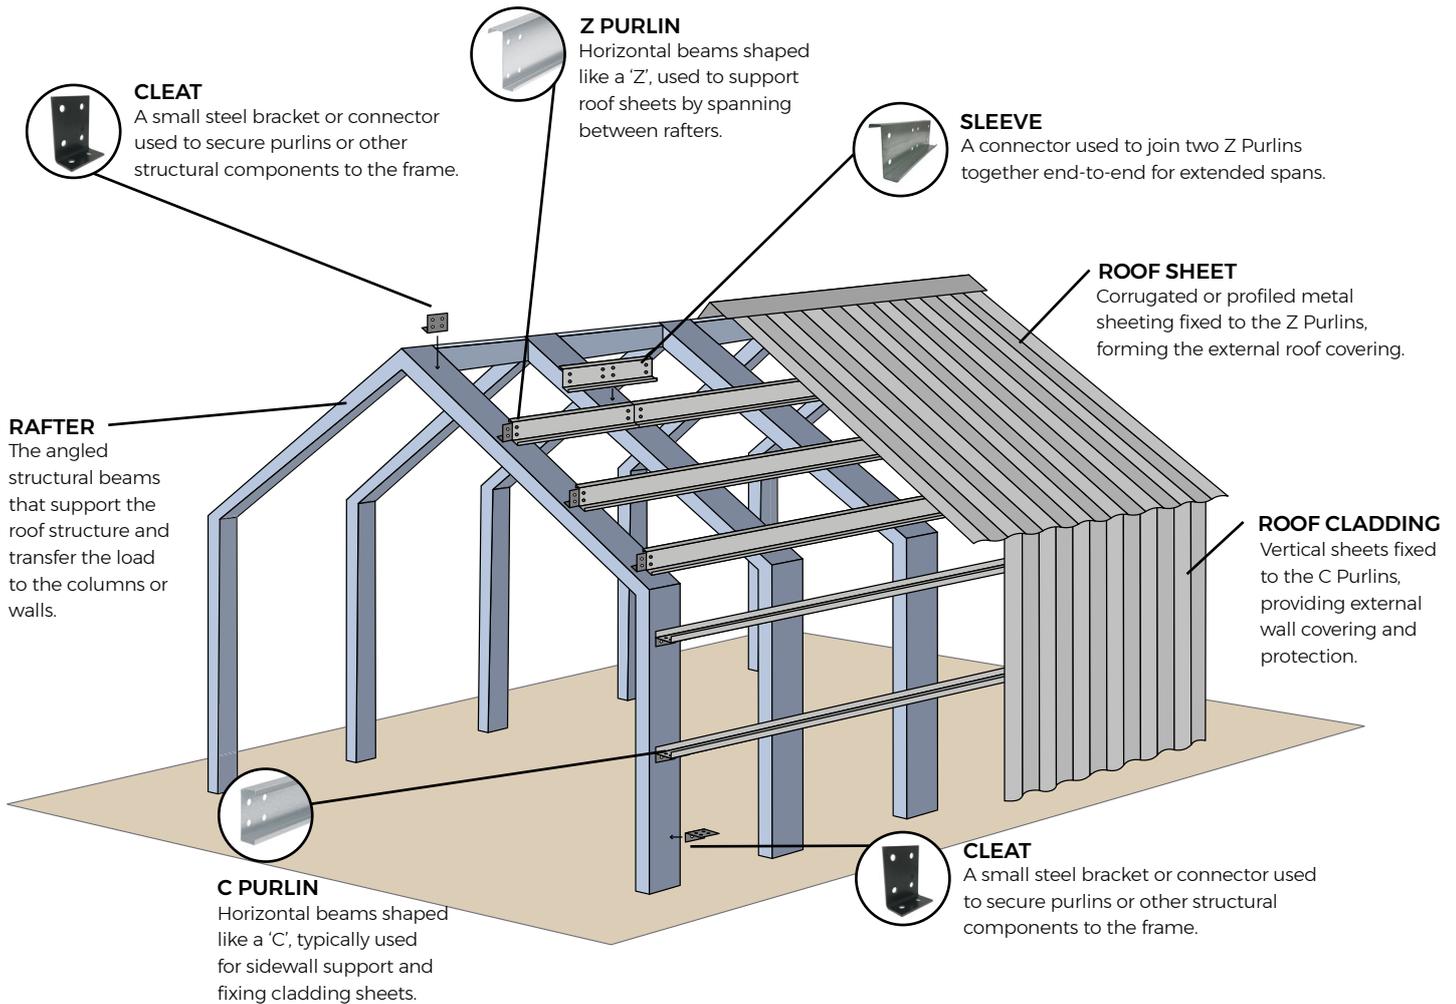

INSTALLATION

Cleats are easily fixed to supporting structures such as RSJs or joists, providing a secure point for purlin attachment.

LONG-LASTING

These metal brackets help create a durable and stable substructure, delivering reliable, long-term support for roofing and cladding systems.
