

3M RECYCLED PLASTIC JOIST DECKING FRAME

Cladco recycled plastic joists are manufactured to be a high-quality, durable alternative to traditional timber joists and designed to provide a low-maintenance, supporting substructure for your Cladco Nordeck, ProDeck, Signature composite or timber decking.

Recycled plastic joists are produced using 100% post-consumer plastics, which are then shredded, melted and poured into moulds. Joists are available to order in black.

*This warranty is provided by the supplier and not Cladco Profiles.

SPECIFICATIONS

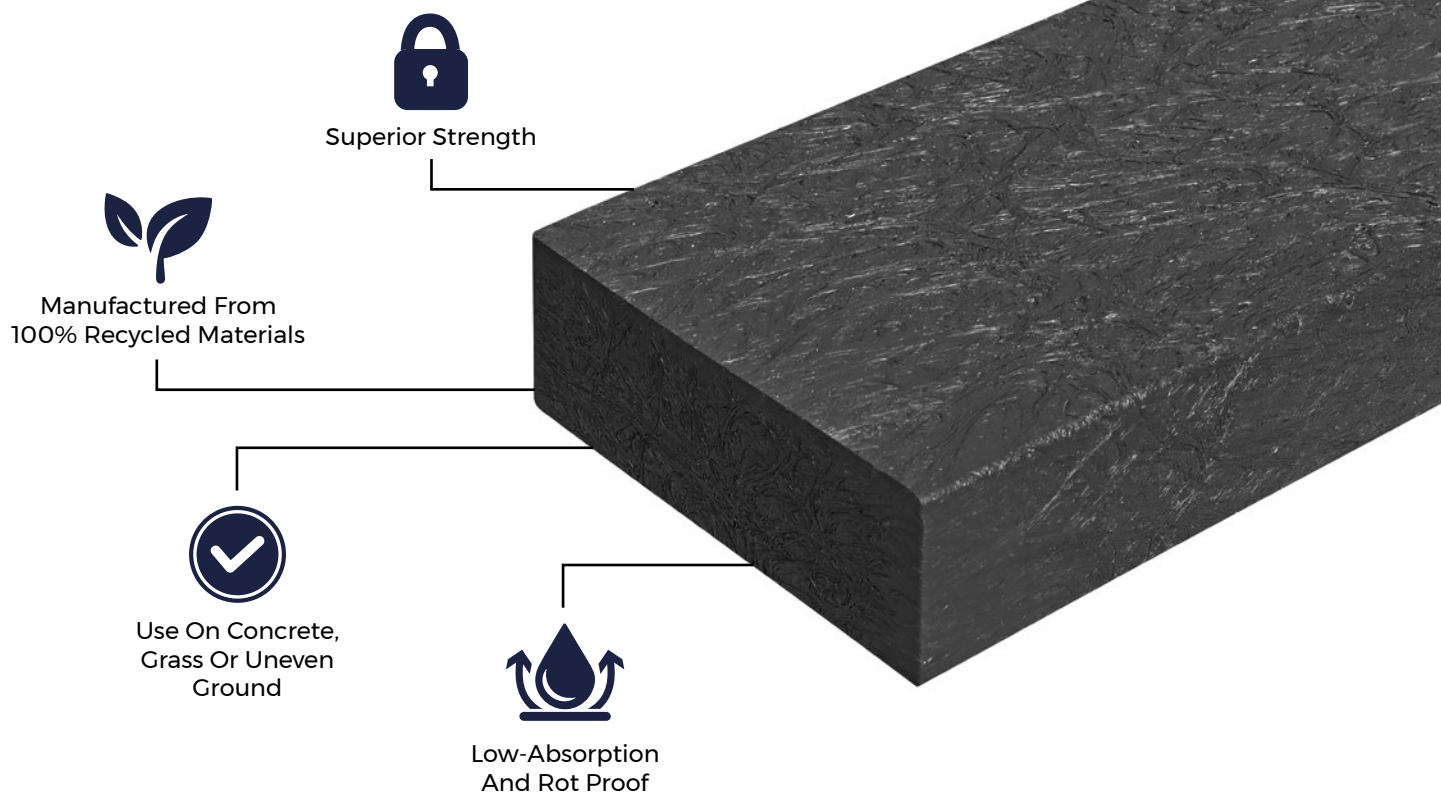

SKU	PLAS5015036BL
Each Joist Measures	3000mm x 50mm x 150mm
Each Joist Weighs	19.5kg (approximately)

Joists/Stringers	Max Spans (deflection mm)											
	Distributed load: 1.5kN/m ² Point Load 1.0kN				Distributed load: 3kN/m ² Point Load 1.5kN				Distributed load: 5kN/m ² Point Load 2.0kN

JOIST CENTRES

Cladco recycled plastic joists require support every one metre for the decking frame. When installing composite decking onto recycled plastic joists, we advise 400mm centres. For recycled plastic joists and Nordeck decking installations, we advise 300mm centres. For more information on how to install correctly, consult our installation guides.

 MATERIALS Made from 100% recycled shredded post-consumer plastics to create a highly-resistant joist.	 SURFACE Available in a smooth, black finish that's easy to work with ordinary woodworking tools	 ACCESSORIES Fixings and clips are available to securely install boards, with fascia boards to finish.	 LOW MAINTENANCE Unlike timber, Cladco recycled plastic joists are rot, moisture and splinter resistant.	 LONG LASTING Cladco recycled plastic products are backed by a 20-year supplier warranty.
