

# 20CM BALL BUNGEEES

## TARPAULIN ACCESSORIES

Cladco 20cm ball bungees are designed to keep tarpaulins securely in place while allowing for movement and flexibility in windy conditions. Available in black, these durable bungees come in convenient packs of 10 or 30 to suit your project needs.

### COLOUR RANGE

#### MATERIALS

Made with a strong elasticated loop and a durable plastic ball for secure fastening.

#### DURABILITY

Designed to withstand tension, our ball bungees are weather-resistant and suitable for use in all outdoor conditions.

#### ACCESSORIES

Available accessories include poly rope, as well as our tarpaulin range with a variation of weights and sizes.

#### FLEXIBILITY

The ball bungees have an elasticated design which keeps tarpaulins secure yet adjustable, allowing for movement without loosening.

#### INSTALLATION

Designed for quick and effortless setup, simply stretch and secure for a strong, reliable hold.

| Ball Width | 30mm  |
| Weight     | 20g   |

**Please note:** Images are for illustration purposes only. Actual products may vary slightly from those shown.

## HOW TO USE OUR BALL BUNGEEES

1. Simply pass the elastic loop through the eyelets of your tarpaulin until the plastic ball sits flush against the eyelet.

2. Use the loop to fasten the tarpaulin to a fixed point for a tight and secure hold.

3. Pull the elasticated loop back over the plastic ball to lock it in place.

**PLEASE NOTE:** When stretching the ball bungee, take extra care to keep any unprotected body parts away from any rebound paths. We recommend wearing protective eyewear when using any elasticated product to prevent an uncontrolled release injury. Check ball bungees regularly for any signs of damage or wear and tear.
