270GSM BLACK/SILVER HEAVY-DUTY
WATERPROOF TARPAULIN

Our 270gsm heavy-duty tarpaulins feature a dense 16x16 weave and are made from durable polyethylene, making them ideal for demanding applications like temporary roofing on building sites. Available in a range of lengths from 3m to 10m to suit your project requirements.

COLOUR RANGE

BLACK/SILVER

MATERIALS

This heavy-duty tarpaulin features an impressive 16x16 weave count and is manufactured from high-density polyethylene with a silver top sheet hemmed onto a black underside.

DURABILITY

The tarpaulin features thick three-rivet corner reinforcements on all our corners for added durability, as well as 12mm aluminium eyelets, spaced 50cm apart along all four sides of the sheet.

ACCESSORIES

You can use ball bungees and poly ropes alongside the tarpaulin to ensure a strong installation.

RESISTANCE

With UV protection, the tarpaulin offers enhanced durability. This resistance to sun-induced deterioration makes them ideal for temporary coverings.

INSTALLATION

Despite having a heavier structure compared to our other range of tarpaulins, these sheets are easy to handle and manage.

SPECIFICATIONS

Thickness	270gsm
Weave Count	16 x 16
Material	Polyethylene
Sizes	5 Available

*All our tarpaulin sheets are cut sizes, which is industry standard terminology for the size of the material before it is formed into a tarpaulin. This means that when seams and hems are taken into consideration, the final size can be up to 30cm-45cm shorter.

PLEASE NOTE: The bigger the tarpaulin, the more support it will require. Always ensure that the tarpaulin is suitably supported according to its size.
